Enjoy TRUE FULL-HD Quality Everywhere

The VeNET IP4 : converts FOUR HDMI HD Videos into IP Streaming for multicast over LAN and WIFI to unlimited TVs

Why VeCOAX-PRO4-IP is the IPTV solution ?

VeCOAX-PRO4-IP is the perfect, final and affordable solution to distribute Quality Full-HD Multi-Video to unlimited standard IP TV HD set top boxes and IP video players via common LAN and wifi networks.

Simple Distribution via the WIFI and LAN

Based on the IPTV technology, the VeCOAX-PRO4-IP converts FOUR independent HDMI HD videos and stereo or surround sound into a real time IP TV HD Streaming you can inject straight to the WIFI or LAN multicast-enabled networks, so all the connected IP Video players will receive it as it would be just another FOUR standard IP TV programs, HD. Each HDMI input is independent and can operate at the same or different resolution from the others.

True HD Full-Quality on all your HD TVs

VeCOAX-PRO4-IP does not compromise with your quality of picture, thanks to its broadcast-grade processors that captures and distribute your Full-HD contents with almost no-delay and no flaws, perfect on Sports, High Motion Video, Text Crawls in Digital Signage, and any other content.

Multiple Programs

VeCOAX-PRO4-IP output can be set to any multicast address and port, as well to simultaneous unicast. Multiple VeCOAX-PRO4-IP can be used to achieve the wanted number of distributed programs.

Connects to any Video Source

VeCOAX-PRO4-IP is compatible to any DVI and HDMI Sources.

HDMI inputs makes this converter suitable for pro applications where perfectness of HD Picture Quality is most wanted.

Easy Setup and Control

VeCOAX-PRO4-IP can be totally controlled via the local Display and Keyboard without the need to connect a PC.

Remote Control is also possible via the standard IP LAN network through the included management software.
